HOBBIES

- Coding
- Badminton
- Traveling

ABOUT ME

Full Stack JavaScript Engineer with over 2 years of experience delivering scalable, modern web and mobile applications using technologies like React, Next.js, Node.js, React Native (with Expo), and the MERN stack. Proficient in backend architecture with Node.js, MongoDB, and Supabase, and frontend development using TypeScript, Tailwind CSS, ShadCN, MUI, and SASS. I've led the design and implementation of Shopify storefronts and custom integrations. Recently served as a Team Lead, guiding development sprints, architecture planning, and product delivery for SaaS platforms. Strong focus on clean code, Git best practices, performance optimization, and building high-quality, maintainable products.

EDUCATION

Associate Degree Program (Ongoing)

- Virtual University of Pakistan

Intermediate

- Government Degree College Hasilpur

EXPERIENCE

Team Lead (Current)

- Devnodes (Multan)

Frontend Developer (2023-2024)
